

HAND SANITIZER GEL

for fast easy cleansing

Ethyl Alcohol 70% v/v

IN STOCK NATIONWIDE

AERO TM CLEANSE

Make AeroCleanse™ Hand Sanitizer Gel a part of your daily hand hygiene routine.

Throughout the day you can accumulate germs on your hands from a variety of sources. These include direct contact with people, contaminated surfaces, food and animals. In fact, touching transmits 80% of infections.

CONTRACT MANUFACTURING

Our Quality. Your Brand.

- In-House Label Printing
- Bottle Blowing
- Contract Filling
- Regulatory Compliance

A composite image featuring a large blue-tinted bottle on the left and a black-and-white photograph of a production line on the right. The production line shows several clear plastic bottles with white pump dispensers being filled with a liquid containing many small bubbles. The bottles are moving along a conveyor belt system with metal rollers and guides.

AERO Healthcare specializes in the manufacturing and distribution of best-in-class healthcare solutions across the world for several decades. These include, but are not limited to, first aid supplies, bleed control products, CPR training products & consumables, AEDs, AED trainers and related supplies.

We manufacture products in 22 countries and partner with distributors throughout North America, Europe and Asia Pacific. We are unconditionally committed to our strategic partners' distribution channels with quality product and sales support programs.

NEED A MANUFACTURER AND PARTNER YOU CAN TRUST?

AERO Healthcare is committed to becoming a trusted advisor for all workplace first aid needs. AERO is an accredited global advisor on meeting regulatory standards across ANSI and OSHA, eliminating compliance concerns for our distribution partners.

We provide complete First Aid, PPE, Bleed Control and CPR products that are compliant with regulatory requirements: US FDA, Health Canada, TGA and CE. AERO offers comprehensive compliance standards supporting documents.
